#### Conference outline

The Young Citizens Danube Network was founded in July 2010 as part of the European Union Strategy for Danube Region (EUSDR) with the aim of bringing young people together to exchange experience and ideas and to give them opportunity to participate in shaping the region's and their own future.

The three day conference is expected to gather approximately 50 young Danubians who will be given the possibility to partake in interdisciplinary workshops and discuss challenges of the Danube region.

The Conference aims to provoke a dialogue among young people coming from all 14 countries of the Danube region. Through dialogue YCDN wants to enable young generation to successfully learn from each other and share and expand their views of the regional cooperation and youth.
